

US Military ALE identifiers

as of 31 March 2020

Compiled by Ron (mdmonitor1@verizon.net)

This is a list of ALE identifiers used by US military (Army, Navy, Marine Corps) on HF nets. This list is compiled from my own monitoring as well as posts from other monitors around the country & in Europe. This list was started from a database first compiled several years ago by veteran monitor Mike Chace-Ortiz and posted on his now defunct web site.

NOTE: All information in this file is from open sources. No classified information is knowingly included.
